An ideology is a collection of normative beliefs and values that an individual or group holds for other than purely epistemic reasons.. The term, and the system of ideas associated with it, was coined by Antoine Destutt de Tracy in 1796, and in contemporary philosophy is now narrower in scope than the original concept, or the ideas expressed in concepts such as worldview, imaginary and ontology.

Three Decisions about Theory. The assumption that an organization is an object with an independent existence—that is to say, it has an “objective” rather than “subjective” reality—is characteristic of the postpositive An approach to organizational communication which holds that organizations have objective existences. Since the imperative to optimize performance governs the ...

Discourse analysis offers a powerful toolbox for analysing political communication, but it also has its pitfalls. Aside from being very work-intensive, the idea that you only need to follow a certain number of steps to get your results can be misleading. A methodology is always only as good as your question. If your question does not lend itself to this sort of analysis, or if many of the steps / ...
